WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

P.I. NOTES 43/66

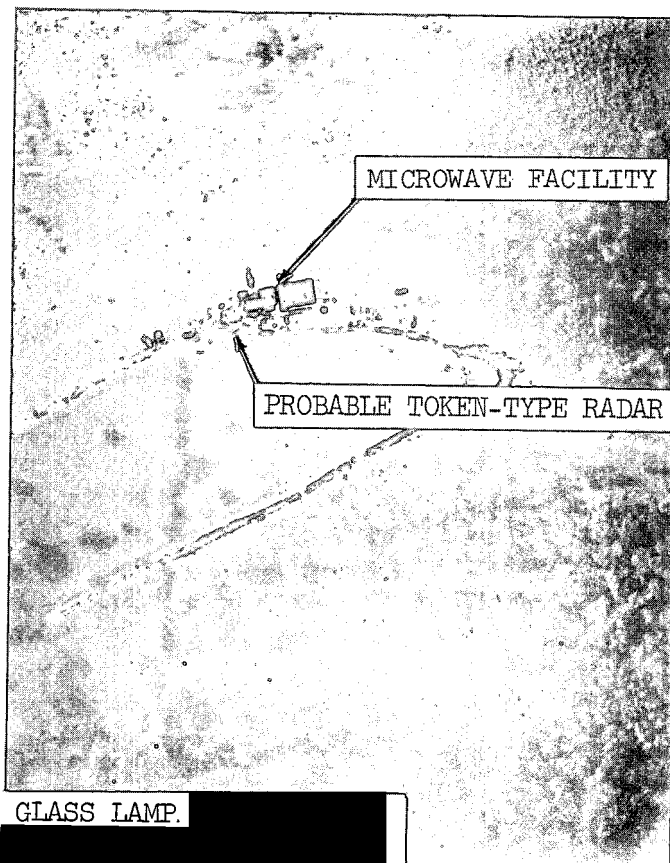

CUBA

25X1D

Continuing analysis of GLASS LAMP [REDACTED] reveals a new radar site located 4.5 nautical miles NNW of Santiago de Cuba at UTM coordinates 18QVT105215 (AMS Series E723, Sheet 5076 III). The site is adjacent to a known microwave relay station and consists of one probable token-type radar, two van trucks, three probable generator trailers, one probable van trailer, and two U/I vehicles/pieces of equipment. The site was also observed on [REDACTED]
